Summary

Results-driven software engineer with a strong background in full-stack development, AI, and cloud technologies. Passionate about building scalable applications and AI-driven solutions. Adept at problem-solving, optimizing performance, and implementing best coding practices.

Skills

- Programming: Python, JavaScript, TypeScript, Go
 - Web Development: Next.js, React, Tailwind CSS, Node.js
 - DevOps: Docker, Kubernetes, CI/CD, Terraform
 - AI/ML: TensorFlow, PyTorch, OpenAI, Hugging Face, LangChain
 - MLOps: FastAPI, Jenkins, Phidata, Model Deployment
 - Databases: PostgreSQL, MongoDB, MySQL, Redis
 - Cloud: AWS, GCP, Azure
-

Projects

AI Research Assistant SaaS

- Developed an AI-powered research assistant for document retrieval, summarization, and transcription using RAG and multimodal AI.
- Integrated FastAPI, Hugging Face, and LangChain for seamless NLP capabilities.

School Management System

- Built a full-stack web application with CRUD functionality for students, teachers, and courses.
- Used Next.js, Tailwind CSS, and PostgreSQL for an optimized user experience.

Horror Story App with AI Memory Management

- Created a client-based app for horror storytelling with AI chatbot memory management.
 - Implemented conversation history storage and retrieval for continuity.
-

Achievements

- Published an open-source AI tool with 1K+ GitHub stars
 - Ranked in the top 5% on LeetCode (DSA & Competitive Programming)
 - Built an AI workflow automation system used by 10+ startups
 - Contributed to open-source projects in AI and cloud computing
-

Education

Master of Computer Applications (MCA)

XYZ University, India

Graduation Year: 2024

Certifications

- AWS Certified Solutions Architect - Associate
 - TensorFlow Developer Certification
 - Google Cloud Professional Data Engineer
 - DevOps Engineer - Kubernetes and Terraform
-
